from the infrastructure depreciation account.

The City Council continued discussing the following:

-9/80 schedule,

-Staff productivity,

-Equality in salaries.

Mayor Pro Tem Lesser requested parliamentary direction from Assistant City Attorney Michael Estrada.

Assistant City Attorney Estrada clarified that a motion was made, a substitution motion was made and seconded, that the substitute motion is debatable and upon closure of the debate the substitute motion is voted on. If the substitute motion passes, then the substitute motion is voted as a motion, if the substitute motion fails, then the vote will happen on the primary motion.

Councilmember Powell added a friendly amendment to the substitute motion to include funding for CIP, stormwater structural and street landscape and street lighting.

The City Council continued discussing the following item regarding the substitute motion:

Councilmember Powell), and for the City Manager to return with a proposed operating budget for the following budget hearing with modifications, transfer \$500,000 from the sale of the Marriott to the pension supplemental trust, abolish the deferred compensation program for Management Confidential employees at the end of the 2017-2018 fiscal year and those funds to go to the pension fund (in five years there would be a \$1.8 million from deferred compensation), take the economic uncertainty account and rename it the City infrastructure depreciation account, take the proposed CIP projects from 2016-2017 and move them to 2017-2018 with \$4.5 (\$1.5?) million transferred to the new City infrastructure depreciation account, hire a private contractor that will look at benchmark cities and do a study regarding control of salaries to the City's highest paid employees, and last, subsidies for the stormwater should come from the infrastructure depreciation account. Friendly amendment by Councilmember Powell to add the sequestration of surpluses to the primary motion.

The motion was carried by the following vote:
