Upon request of the City, the Bidder shall furnish evidence showing a notarized financial statement, financial data, construction experience, or other additional information.

Failure to provide truthful answers to the questions above or in the following References Form may result in the Bid being deemed non-responsive.

Urban Runoff Certification. The Bidder certifies to the City that he/she has trained his/her employees and Subcontractors, if any, for Urban Runoff management and has included sufficient sums in the Bid Price to cover such costs of training as stipulated in the most current Regional Water Quality Control Board requirements, including the Municipal Separate Storm Sewer System National Pollutant Discharge Elimination System (NPDES) Permit. The Contractor is responsible for all clean up and payment of all fines levied as a result of any illegal discharge (as defined in NPDES permit) occurring as a result of the Contractor's Work and/or operations.

I, the undersigned, certify and declare that I have read all the foregoing answers to the Bidder's Proposal – Contractor's Statement and know their contents. The matters stated in the Bidder's Proposal – Contractor's Statement answers are true of my own knowledge and belief, except as to those matters stated on information and belief, and as to those matters I believe them to be true. I declare under penalty of perjury under the laws of the State of California that the foregoing is correct.

BID BOND

SLURRY SEAL PROJECT – NORTH AREA OF SAND SECTION

KNOW ALL PERSONS BY THESE PRESENTS that:

WHEREAS the City of Manhattan Beach ("City"), has issued an invitation for Bids for the Work described as follows: Slurry Seal Project - North Area of Sand Section (Construction)

WHEREAS Pavement Coatings Co., 10240 San Sevaine Way, Jurupa Valley CA 91752

(Name and address of Bidder)

("Principal"), desires to submit a Bid to City for the Work.

WHEREAS, Bidders are required to furnish a form of Bidder's security with their Bids.

NOW, THEREFORE, we, the undersigned Principal, and The Ohio Casualty Insurance Company,

175 Berkeley Street, Boston, Massachusetts 02116

(Name and address of Surety)

("Surety"), a duly admitted surety insurer under the laws of the State of California, as Surety, are held and firmly bound unto the City in the penal sum of Ten Percent of Amount Bid Dollars (\$ 10% of Amt. Bid), being not less than ten percent of the total Bid price, in lawful money of the United States of America, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT, if the hereby bounded Principal is awarded the Contract for the Work by the City and, within the time and in the manner required by the bidding specifications, enters into the written form of Contract included with the bidding specifications, furnishes the required Bonds (one to guarantee faithful performance and the other to guarantee payment for labor and materials), and furnishes the required insurance coverage, then this obligation shall become null and void; otherwise, it shall be and remain in full force and effect.

In case suit is brought upon this instrument, Surety further agrees to pay all court costs incurred by the City in the suit and reasonable attorneys' fees in an amount fixed by the court. Surety hereby waives the provisions of Civil Code Section 2845.

IN WITNESS WHEREOF, this instrument has been duly executed by Principal and Surety, on the date set forth below, the name of each corporate party being hereto affixed and these presents duly signed by its undersigned representative(s) pursuant to authority of its governing body.

Dated: December 9, 2022

Teresa Pastella
Teresa Pastella, Notary Public

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.

Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts: Section 5. Surety Bonds and Undertakings.

Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 9th day of December, 2022.

By:

Renee C. Llewellyn
Renee C. Llewellyn, Assistant Secretary

Not valid for mortgage, note, loan, letter of credit, currency rate, interest rate or residual value guarantees.

**NONCOLLUSION DECLARATION FORM
TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID
[Public Contract Code Section 7106]**

SLURRY SEAL PROJECT – NORTH AREA OF SAND SECTION

The undersigned declares:

I am the Vice President of Pavement Coatings Co., the party making the foregoing Bid.

The Bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The Bid is genuine and not collusive or sham. The Bidder has not directly or indirectly induced or solicited any other Bidder to put in a false or sham Bid. The Bidder has not directly or indirectly colluded, conspired, connived, or agreed with any Bidder or anyone else to put in a sham Bid, or to refrain from bidding. The Bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the Bid price of the Bidder or any other Bidder, or to fix any overhead, profit, or cost element of the Bid price, or of that of any other Bidder. All statements contained in the Bid are true. The Bidder has not, directly or indirectly, submitted his or her Bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, Bid depository, or to any member or agent thereof, to effectuate a collusive or sham Bid, and has not paid, and will not pay, any Person or entity for such purpose.

Any person executing this declaration on behalf of a Bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the Bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on 12/13/2022 [date], at Jurupa Valley [city], California [state].

**CITY OF MANHATTAN BEACH PUBLIC WORKS
ENGINEERING DIVISION**

3621 Bell Avenue, Manhattan Beach, CA 90266

WEBSITE: www.citymb.info **PHONE:** (310) 802-5353 **FAX:** (310) 802-5351 **TDD:** (310) 546-3501

CITY OF MANHATTAN BEACH

ADDENDUM NO. 1

SLURRY SEAL PROJECT – NORTH AREA OF THE SAND SECTION

This Addendum shall take precedence over any conflicting information contained either in the plans, specifications, or advertisement of Notice Inviting Bids for the Slurry Seal Project North Area of the Sand Section (Project No: T-260B Bid No.: EI270-22C). Bidders shall incorporate the information contained in this Addendum in their bids, conform to all of the instructions contained herein in the preparation of a bid, and shall sign and submit this Addendum as a portion of the Contractor's Proposal as an indication of understanding and compliance with this Addendum.

Please note the following revisions to the Request for Bid documents.

1. Notice Inviting Bids

- a) The City has extended the bid duration and will receive ELECTRONIC BIDS ONLY up to 1:00 p.m. on Thursday, December 15, 2022, at which time the ELECTRONIC bids will be opened and posted on PlanetBids.
- b) Additional Working Days may be granted for Additive Bid Schedule E (3 total Working Days). Working Days for additive bid schedules, if awarded, are in addition to the Base Bid Working Days.

2. Bid Schedule

- a) The following Additive E (Decorative Crosswalks) is hereby added to the Bid Schedule page B-6 of the Bid Documents, as well as the PlanetBids Line Items:

ADDITIVE BID SCHEDULE E (DECORATIVE CROSSWALKS):

ITEM NO.	CODE	DESCRIPTION	UNIT	ESTIMATED QUANTITY	UNIT PRICES	EXTENDED AMOUNT
51	%	Traffic Control (5% maximum of Total Bid Price)	LS	1	N/A	\$

52	S, %	Decorative Crosswalks	SF	5500	\$	\$
	TOTAL ADDITIVE BID SCHEDULE E:					\$ _____

- b) The following Decorative Crosswalks Bid Item Description is hereby added to page B-7 of the Bid Documents:

Decorative Crosswalks: Removal of decorative crosswalks (included in Bid Item 10), application of crosswalk striping/markings including 12" white thermoplastic crosswalk lines (included in Bid Item 10), and other Base Bid Work shall be included in the Base Bid Items and are not to be included in Additive Bid Schedule E for supply and install of Decorative Crosswalks. **If the City elects to proceed with the additive for the Decorative Crosswalks, the slurry seal (included in Base Bid Item 9) shall not be applied to the Decorative Crosswalk areas prior to application.** Full compensation for design, proofs, labor, stencils, colors, materials, tools, equipment, application, technical services, incidentals, and all Work necessary for supply, surface preparation, and install of Decorative Crosswalks shall be considered as included in the bid item for Decorative Crosswalks where outlined in the Construction Plans (i.e., Highland Ave at 34th Street, 35th Street, 36th Street, and Rosecrans Avenue), and Part 10 Standard and Special Technical Provisions Section 8.

3. **Part 9 Special Instructions**

- a) The following is hereby added to Section 4-1 Outdoor Dining Parklets:

During construction at the outdoor dining parklets, the City and/or community user groups may host annually scheduled special events and festivities in or near the business districts. These events typically take place on weekend dates with weekday setup before the scheduled event date. The Contractor shall cooperate and accommodate the event as directed by the Engineer. Annually scheduled events and festivities within the project timeline include, but are not limited to:

April – Richstone Pier-to-Pier Walk (Friday-Sunday)

April – Downtown Sidewalk Sale (Friday-Sunday)

May – Tour de Pier (Friday-Sunday)

May – Mother's Day (Wednesday-Sunday)

4. **Part 10 Standard and Special Technical Provisions**

- a) Section 8 Decorative Crosswalk Treatment is hereby replaced with the following:

SECTION 8. DECORATIVE CROSSWALK TREATMENT

8-1 GENERAL

WORK OF THIS SECTION

- A. Removal of decorative crosswalks, application of slurry seal, application of crosswalk striping/markings including 12" white thermoplastic crosswalk lines and other Base Bid Work for all crosswalk areas shall be included in the Base Bid Items and are not to be included in the Additive Bid Schedule E for supply and install of Decorative Crosswalks. If the City elects not to proceed with the work to supply and install Additive Bid Schedule E, only Base Bid work would be conducted which includes the 12" white thermoplastic crosswalk striping as shown in Appendix VII Construction Plans (without decorative crosswalks).
- B. The Contractor is to inspect in-field differences, measure, remove, and replace per the technical provisions, **the manufacturer's installation requirements**, and the **Engineer's direction**. The contractor shall receive approval for removal of any decorative crosswalks prior to construction. If any existing crosswalks are partially removed, marked, or otherwise damaged without Engineer approval, the Contractor shall remove and restripe the entire crosswalk to its original, or better, condition.
- C. A durable pavement overlay material suitable for streetscape and traffic calming purposes shall be used at the crosswalk locations identified in the Construction Plans (i.e., Highland Ave at 34th Street, 35th Street, 36th Street, and Rosecrans Avenue). The material shall be equally suitable for concrete and asphalt surfaces. The decorative crosswalk material and installation process shall be Interconnected Preformed Traffic Patterns by Ennis-Flint or approved equal. Design proofs exist on file with PPG Traffic Solutions and Shariden Design (Contact: Kelly Matkin, 800.331.8118, kmatkin@ppg.com and Steve Klasna, (619) 884-9507, steve@sharidendesignasphalt.com). The Image shown below is for informational purposes only. Existing Decorative Crosswalk Treatment:

- D. Manufacturing Control and ISO Certification: The manufacturer must be ISO 9001:2008 certified for design, development and manufacturing of preformed thermoplastic, and provide proof of current certification.
- E. The material must be a resilient preformed thermoplastic product which contains a minimum of thirty percent (30%) intermixed anti-skid/anti-slip elements and where the top surface contains anti-skid/anti-slip elements. These anti- skid/anti-slip elements must have a minimum hardness of 8 (Mohs scale) and meet the following gradation:

Size Gradation		Intermix		Drop - On	
US Mesh	µm	Retained, %	Passing, %	Retained, %	Passing, %
10	2000	0 - 10%	90 - 100%		
12	1700	5 - 25%	75 - 95%		
14	1400	15 - 50%	50 - 85%		
16	1180	15 - 50%	50 - 85%	0 - 5%	95 - 100%
18	1000	10 - 30%	70 - 90%	0 - 10%	90 - 100%
20	850	0 - 5%	95 - 100%	5 - 25%	75 - 95%
25	710	0 - 2%	98 - 100%	15 - 50%	50 - 85%
30	600			15 - 50%	50 - 85%
35	500			5 - 25%	75 - 95%
40	425			0 - 10%	90 - 100%

- F. The material must be resistant to the detrimental effects of motor fuels, antifreeze, lubricants, hydraulic fluids, etc.
- G. The material shall be capable of being applied on bituminous and/or portland cement concrete pavements by the use of a handheld heat torch, an infrared heater, or a blue-flame radiant heater. The use of a compactor or similar equipment shall not be necessary. The material must be able to be applied to asphalt and concrete surfaces without preheating the application surface to a specific temperature. **To avoid slurry seepage into the design, no slurry seal shall be applied to the area prior to application.** The material must be capable of being affixed to green concrete (concrete that has set but not appreciably hardened). The material shall not require the portland cement concrete application areas to be cured or dried out.
- H. The material must be capable of conforming to pavement contours, breaks and faults through the action of traffic at normal pavement temperatures. It shall not be necessary to use a grid template or to make pattern grooves or other indentations in the asphalt or concrete surface prior to applying the material. It shall not be necessary to inlay the material in grooves or indentations. It shall not be necessary to heat the pavement or application surface to a specific temperature.
- I. The material is typically supplied in segments measuring 24 in. by 24 in. The material must be factory assembled and interconnected with a compatible material,

so that it is unnecessary to assemble the individual "brick" pieces at the jobsite. Certain 24 in. by 24 in. material segments may be rotated to create additional pattern options using standard parts.

- J. Interchangeable, patterned borders shall be available in either 8 in. or 12 in. wide by 24 in. long sizes, to allow flexibility in design options using standard parts.
- K. The material must be able to be applied in temperatures down to 45°F without any special storage, preheating or treatment of the material before application.
- L. The material must be able to be applied to asphalt and concrete surfaces without using a grid template and without forming a pattern in the application surface. Heating indicators must be evenly distributed on the surface of the material in order to ensure correct application.
- M. The material must cover the entire application area and be flush across the surface. Once applied, no part of the pavement surface must be visible in the application area.

8-2 MATERIALS

8-2.1 THERMOPLASTIC MATERIAL:

- A. The material must be composed of an ester modified rosin impervious to degradation by motor fuels, lubricants, etc. in conjunction with aggregates, pigments, binders, and anti-skid/anti-slip elements. Pigments and anti-skid/anti-slip elements must be uniformly distributed throughout the material. The thermoplastic material conforms to AASHTO designation M249, with the exception of the relevant differences due to the material being supplied in a preformed state, being non-reflective, and potentially being of a color different from white or yellow.
- B. Pigments:
 - i. White: The material shall be manufactured with sufficient titanium dioxide pigment to meet FHWA Docket No. FHWA-99-6190 Table 5 and Table 6 as revised and corrected.
 - ii. Red, Blue, and Yellow: The material shall be manufactured with sufficient pigment to meet FHWA Docket No. FHWA-99-6190 Table 5 and Table 6 as revised and corrected. The pigment system must not contain heavy metals nor any carcinogen, as defined in 29 CFR 1910.1200 in amounts exceeding permissible limits as specified in relevant Federal Regulations.
 - iii. Other Colors: The pigment system must not contain heavy metals nor any carcinogen, as defined in 29 CFR 1910.1200 in amounts exceeding permissible limits as specified in relevant Federal Regulations.
- C. Heating indicators: The top surface of the material shall have regularly spaced indents. These indents shall act as a visual cue during application that the material has reached a molten state so satisfactory adhesion and proper embedment of anti-skid/anti-slip material has been achieved, and a post-application visual cue that the application procedures have been followed.

- D. Skid Resistance: The surface of the preformed thermoplastic material shall contain factory applied anti-skid material with a minimum hardness of 8 (Mohs scale). Upon application the material shall provide a minimum skid resistance value of 60 BPN when tested according to ASTM E 303.
- E. Slip Resistance: The surface of the preformed thermoplastic material shall contain factory applied anti-skid material with a minimum hardness of 8 (Mohs scale). Upon application the material shall provide a minimum static friction of coefficient of 0.6 when tested according to ASTM C 1028 (wet and dry), and a minimum static coefficient of friction of 0.6 when tested according to ASTM D 2047.
- F. Thickness: The material must be supplied at a minimum thickness of 125 mil (3.18 mm).
- G. Environmental Resistance: The material must be resistant to deterioration due to exposure to sunlight, water, salt or adverse weather conditions and impervious to oil and gasoline.
- H. Interconnected: The material must consist of interconnected individual pieces of preformed thermoplastic pavement material, which through a variety of colors and patterns, make up the desired design. The individual pieces in each material segment (typically 24 in. by 24 in.) must be factory assembled and interconnected with a compatible material so that in the field it is not necessary to assemble the individual pieces within a material segment. Multiple patterned border segment options shall be available in the material in either 8 in. or 12 in. wide by 24 in. long sizes.
- I. Final design shall be submitted and approved by Engineer prior to fabrication and application.

8-3 EXECUTION

8-3.1 PREPARATION OF EXISTING SURFACES:

- A. Preparation of existing surfaces by grinding shall follow the same procedure as outlined in Part 10 Section 7-3.2 Preparation of Existing Surfaces of the Standard and Special Technical Provisions in accordance with Section 84, "TRAFFIC STRIPES AND PAVEMENT MARKINGS," and Section 15, "EXISTING FACILITIES," of the 2015 Caltrans Standard Specifications and Caltrans Revised Standard Specifications. The surface produced by grinding the existing or temporary traffic striping or markings on pavement shall not exceed variations from a uniform plane more than 1/8-inch in 10-feet when measured parallel to the centerline of the street or more than 1/4-inch in 10-feet when measured perpendicular to the centerline of the street. The use of any equipment that leaves ridges, indentations or other objectionable marks in the pavement shall be discontinued, and the CONTRACTOR shall furnish equipment capable of providing acceptable surface. The pavement shall be clean, dry, free of cracks, and debris. **To avoid slurry seepage into the design, no slurry seal shall be applied to the area prior to application.**

8-3.2 THERMOPLASTIC MATERIAL:

- A. The material shall be applied using the propane torch method or an infrared heater recommended by the manufacturer. The material must be able to be applied at ambient and road temperatures down to 45°F without any preheating of the pavement to a specific temperature. A sealer specified by the manufacturer must be applied to the substrate prior to material application to ensure proper adhesion, and to provide reinforcement for larger volumes of material. A thermometer shall not be required during the application process. Supplier must enclose application instructions with each box/package, or make available on website.
- B. Packaging: The preformed thermoplastic material shall be placed in protective plastic film with cardboard stiffeners where necessary to prevent damage in transit. The cartons in which packed shall be non-returnable and shall not exceed 25 in. in length and 25 in. in width, and be labeled for ease of identification. The weight of the individual carton must not exceed fifty (50) pounds. A protective film around the box must be applied in order to protect the material from rain or premature aging.

8-4 PAYMENT

Full compensation for design, proofs, labor, stencils, colors, materials, tools, equipment, application, technical services, incidentals, and all Work necessary for surface preparation, supply, and install of Decorative Crosswalks shall be considered as included in the bid item for Decorative Crosswalks.

5. Appendix VII: Construction Plans

- a) Plan sheet 20 has been added to the Construction Plans for clarification on existing playground pavement markings and dimensions and is attached to this Addendum No. 1.

6. Optional Pre-bid Meeting Attendees

Bianca Cardenas	City of Manhattan Beach	(310)802-5357	BCardenas@manhattanbeach.gov
Jeffery Fijalka	City of Manhattan Beach	(310)802-5358	JFijalka@manhattanbeach.gov
Katherine Doherty	City of Manhattan Beach	(310) 802-5353	KDoherty@manhattanbeach.gov
Paul Ruta	MBUSD	(310) 748-5601	PRuta@mbusd.org
Jeffrey Hirsch	Transtech	(909) 217-6023	Jeffrey.Hirsh@transtech.org

7. Optional Pre-bid Meeting Discussion/Clarification

- a) What are the limits of work?

Limits of Work are indicated in Appendix III Location Map and Appendix VII Construction Plans. The Project's Base Bid borders the City of El Segundo to the north, and Additive Bid Schedule C borders the City of Hermosa Beach to the south. Where traffic control and Work are needed in adjacent city's Right-Of-Way, permits are required. The Contractor is responsible for all permit requirements per Part I General Provisions Section 2-2 Permits.

- b) How will the Project incorporate the existing dining decks?

Restaurants' outdoor dining decks currently exist within the north and central areas of the Sand Section. The outdoor dining parklets located in the Right-of-Way of these commercial areas will receive slurry seal at the end of the California State COVID-19 Emergency Orders after the temporary encroachment permits related to the COVID-19 pandemic ultimately expire, which may align with the FY 2022-2023 slurry schedule. Refer to the Additive Bid Schedule D and Part 9 Special Instructions Section 4-1 on Outdoor Dining Parklets. Work for Additive Bid Schedule D (Outdoor Dining Areas) is outlined in green text and legends within Appendix VII Construction Plans.

- c) What are the work hours for slurry of streets adjacent to schools?

Part I General Provisions Section 10-8 Working Days and Hours explains that no travel lanes, pedestrian crossings, or other means of accessibility to any school facilities shall be disturbed by construction activities between 7:30 AM to 8:30 AM and 1:30 PM to 3:30 PM on school days unless otherwise approved by the City Engineer. Contractor shall coordinate all work in the vicinity of schools with the school administrators to minimize construction impacts on special dismissal and event days. Schools include, but are not limited to Grand View Elementary School and Robinson Elementary School.

Refer to Part 9 Special Instructions Section 4-12 for Work within the property of Grand View Elementary School during Spring Break session, where typical work hours of 7:30 AM to 4:30 PM apply.

- d) Is the Grand View Elementary School Parking Lot open to public parking after school hours and while school is not in session?

Grand View Elementary School's Parking Lot is open to public parking between the hours of 4:30 PM to 7:00 AM and all hours when school is not in session. When Work is being performed within the Grand View Elementary School and Lot 6 Parking Lots, the contractor shall post "No Parking" signs at all meters at least 72 hours in advance of construction, per Part 6 601-3.5 Signs and Signage.

- e) There are streets that appear to need additional remedial work beyond a slurry seal preservation treatment. How will these areas be addressed?

Areas of significant distress will be identified for patchwork or full-depth asphalt removal and replacement under their respective Bid Items and only at locations as directed by the Engineer.

This Addendum is approved by:

KATHERINE DOHERTY, PE, CITY ENGINEER

12/12/22

**RESOLUTION OF BOARD OF DIRECTORS OF
PAVEMENT COATINGS CO.**

RESOLVED, That all officers of the Company (being the President, Doug Ford; the Vice-President, James Wu; the Vice-President, Timothy Schmid; the Vice-President, Guy Tittlemier; Secretary, Tom Mucenski; and the Treasurer, Nathan Beyler) are hereby authorized and empowered to enter into contracts, sign bid documents and otherwise execute agreements in the normal course of business and upon such terms and conditions as may be agreed by the Company and the counterparty(ies).

I, James Wu, do hereby certify that I am the duly elected and qualified Vice President and keeper of the records and corporate seal of Pavement Coatings Co., a corporation organized and existing under the laws of the State of California, and that the above is a true and correct copy of a resolution duly adopted at a meeting of the Board of Directors thereof, convened and held in accordance with the Bylaws of said Corporation on the 17th day of December, 2021, and that such resolution is now in full force and effect.

IN WITNESS WHEREOF, I have affixed my name as Vice President and have caused the corporate seal of said Corporation to be hereunto affixed, December 13, 2022.

James Wu, Vice President
Pavement Coatings Co.
