

1 RESOLUTION NO. PC 17-01

2 RESOLUTION OF THE MANHATTAN BEACH PLANNING COMMISSION ADOPTING A
3 MITIGATED NEGATIVE DECLARATION AND APPROVING A MASTER USE PERMIT
4 FOR ESTABLISHMENT OF A BANK AND GROCERY STORE WITH ON-SITE DINING,
5 ALCOHOL SALES AND TASTING, REDUCED PARKING, AND A SIGN PROGRAM AT
6 707 NORTH SEPULVEDA BOULEVARD AND OFF-SITE PARKING AT 801 NORTH
7 SEPULVEDA BOULEVARD (Paragon Commercial Group)

8 THE MANHATTAN BEACH PLANNING COMMISSION HEREBY RESOLVES, FINDS AND
9 DETERMINES AS FOLLOWS:

10 SECTION 1. Paragon Commercial Group ("Applicant") has submitted an application for a
11 Master Use Permit for the property located at 707 and 801 North Sepulveda Boulevard. The legal
12 description of the site is Portions of Lots 1-28, Block 119, and Lot 22, Block 14, of Tract No. 142, of Maps
13 in the office of the Los Angeles County Recorder. The Applicant seeks all the necessary entitlements for:
14 (i) a 27,900 square foot specialty grocery store, including on-sale and off-sale alcohol sales and
15 instructional tastings, with incidental hot and cold prepared food offerings and incidental seating areas
16 (145 square-foot indoor incidental seating area and 503 square-foot incidental outdoor patio seating
17 area), (ii) a 6,684 square foot bank building; (iii) associated business identification signage; (iv) a surface
18 parking lot on the primary project site; and (v) a surface parking lot for employee use on the auxiliary
19 employee parking site (collectively, the "Project"). The proposed tenants are Gelson's Market and First
20 Republic Bank.

21 SECTION 2. The proposed uses—grocery store and bank—are permitted uses in the CG
22 zone. Manhattan Beach Municipal Code (MBMC) Section 10.84.105 requires a Master Use Permit for the
23 establishment of any new multiple-tenant commercial use in the CG zone with floor area exceeding 5,000
24 square feet, or a site area exceeding 10,000 square feet. The proposal exceeds both thresholds. MBMC
25 Section 10.16.020 requires a Use Permit for on-site eating and drinking and alcohol sales/service. MBMC
26 Section 10.64.050(B) requires a Use Permit for reduced parking. Pursuant to MBMC Section 10.84.105, a
27 separate use permit is not required for such uses identified within the scope of this Master Use Permit. In
28 addition, MBMC Section 10.72.060 requires an approved sign program for any multiple tenant site.

29 SECTION 3. The Project has been environmentally reviewed pursuant to the provisions of the
30 California Environmental Quality Act (Public Resources Code Sections 21000, et seq. ("CEQA")), and the
31 State CEQA Guidelines (California Code of Regulations, Title 14, Sections 15000, et seq.). An initial study
32 was prepared pursuant to State CEQA Guideline § 15025 (a). The initial study identified potentially
significant effects in five environmental impact categories: Biological Resources, Cultural Resources,
Hazards & Hazardous Materials, Geology/Soils, and Noise. In the first four categories, the potential
environmental effects generally relate to the potential discovery of unanticipated resources and hazards, but
also to known asbestos in an existing building to be demolished. In the noise category, potential impacts
relate to short-term construction noise that may increase ambient noise levels above applicable thresholds in
the surrounding area. For each potential impact, the initial study and the City determined that revisions to the
Project, which would be imposed as mitigation measures, reduce potential impacts to less than significant.
For example, construction noise in the surrounding area is reduced through restrictions on construction
activities and a requirement to erect a noise barrier. Based on the information contained in the initial study,
the City concluded that the Project could have a significant effect on the environment, but that implementation
of mitigation measures would reduce such impacts to a less than significant level.

SECTION 4. Based upon this determination, a Draft Initial Study and Mitigated Negative
Declaration ("IS/MND") was prepared in accordance with CEQA Section 21080 (c) and Section 15070 of the
State CEQA Guidelines. The Draft IS/MND was circulated to public agencies, interested organizations, and
individuals for review from July 21, 2016 through August 22, 2016. Comments were submitted on the Draft
IS/MND during the public review period, via email and other written correspondence. Although there is no
legal requirement to do so, responses to each of the comments were prepared. A Final Mitigated Negative
Declaration ("Final MND") has been prepared, which includes the Draft IS/MND documentation, the
comments received in response to the Notice of Intent to Adopt a Mitigated Negative Declaration, responses
to those comments, and an explanation of certain revisions to the Project and to the environmental
documentation in response to the public comments. A Mitigation and Monitoring and Reporting Program has
also been prepared.

SECTION 5. On February 8, 2017, the Planning Commission conducted a duly noticed public hearing to consider the Project. The hearing was continued until March 22, 2017. Evidence, both written and oral, was presented to the Commission. All persons wishing to address the Commission regarding the Project were given an opportunity to do so at the public hearing. Representatives of Paragon and other persons spoke in favor of the Project. Representatives of Manhattan Beach Residents for Responsible Development and other persons spoke in opposition to the Project. The record of the hearing indicates the following:

A. The Project is proposed for two parcels in the General Commercial Zone (CG) with a General Plan designation of "General Commercial." The primary site occupies almost an entire block and contains a vacant auto dealership/repair shop comprised of two primary buildings totaling 38,107 square feet of floor area (707 North Sepulveda Boulevard). A single-lot parcel with a vacant 2,242 square-foot automotive building (801 North Sepulveda Boulevard) to the north of the primary site is proposed for employee parking. The Applicant proposes to: (1) retain and modify the main building for grocery store use on the primary site; (2) demolish the smaller building near the corner of Sepulveda Boulevard and 8th Street; and (3) construct a 6,684 square foot bank building near the corner of Sepulveda and 6th Street. A total of 34,584 square feet of floor area is proposed. In addition, the Applicant has applied for: off-site alcohol sales and on-site alcohol sales and service, including tastings, and reduced parking based upon a parking analysis for the Project.

B. Manhattan Beach Municipal Code (MBMC) Section 10.84.105 requires a Master Use Permit for the establishment of any new multiple-tenant commercial use in the CG zone with floor area exceeding 5,000 square feet, or a site area exceeding 10,000 square feet. The Project exceeds both of these thresholds. To approve the Master Use Permit, the Planning Commission must make the use permit findings listed in MBMC Section 10.84.060. The Project's Master Use Permit includes the following conditionally permitted uses: (i) on-site eating and drinking and alcohol sales/service under MBMC Section 10.16.020, and (ii) reduced parking under MBMC Section 10.64.050(B). In addition, MBMC Section 10.72.060 requires an approved sign program for any multiple tenant site.

C. MBMC Section 10.84.060 provides that to approve a use permit, the Commission must find as follows:

1. The proposed location of the use is in accord with the objectives of the Zoning Code and the purposes of the district in which the site is located.
2. The proposed location of the use and the proposed conditions under which it would be operated or maintained will be consistent with the General Plan; will not be detrimental to the public health, safety or welfare of persons residing or working on the proposed Project site in or adjacent to the neighborhood of such use; and will not be detrimental to properties or improvements in the vicinity or to the general welfare of the city.
3. The proposed use will comply with the provisions of the Zoning Code, including any specific condition required for the proposed use in the district in which it would be located.
4. The proposed use will not adversely impact or be adversely impacted by nearby properties. Potential impacts are related but not necessarily limited to: traffic, parking noise, vibration, odors, resident security and personal safety, and aesthetics, or create demands exceeding the capacity of public services and facilities which cannot be mitigated.

SECTION 6. Based upon the facts contained in the record, including those stated in Sections 1-6 of this Resolution and pursuant to MBMC Chapter 10.84 and state law, the Planning Commission hereby finds:

A. With respect to the Master Use Permit:

1. The property is located within Area District I and is zoned CG (Commercial General). The proposed commercial uses are permitted by the zoning code and

32

are appropriate as conditioned for the general commercial area. The surrounding Manhattan Beach properties consist of CG (General Commercial) to the east, south, and north and RS (Residential Single-Family) to the west. The proposed location of the Project (Sepulveda Boulevard) is in accord with the objectives of the Zoning Code and the purposes of the district in which the site is located because Sepulveda is a main commercial thoroughfare and is within a commercial district where a grocery store and bank will complement a full range of retail and service businesses suitable for Manhattan Beach.

- 2. The General Plan designation for the property is GC (General Commercial). The General Plan encourages commercial development that serves City residents and the regional market. The Project is thus consistent with the General Plan designation for the property.

Further, the Project supports and achieves the following specific Goals and Policies in the General Plan: (i) Goal LU-1 and Policy LU-1.2 in that its scale and architectural features reduce bulk and maintain the City's small-town atmosphere; (ii) Goal LU-3 and Policy LU-3.1 in that its design and architectural features achieve a strong, positive community aesthetic; (iii) Policy LU-5.1 in that landscaping and setbacks provide a buffer and separation from nearby residences; (iv) Policy LU-6.2 in that it further diversifies the City's tax base; (v) Goal LU-6 and Policy LU-6.3 in that it is a commercial project in a commercial area and helps maintain the viability of the Sepulveda commercial corridor; and (vi) Policy LU-8-2 in that the Project would upgrade and remodel existing buildings to meet business needs.

The proposed location of the use and the proposed conditions under which it would be operated and maintained will not be detrimental to the public health, safety or welfare of persons residing or working on the Project site or in the surrounding area because Municipal Code requirements and conditions of approval below address lighting, security, safety, aesthetics, landscaping, hours of operation and parking. The Project will not be detrimental to properties or improvements in the vicinity or to the general welfare of the city, in that the site and area already support commercial use, and parking supplies are adequate.

- 3. The proposed uses will comply with the provisions of the Zoning Code, including any specific condition required for the proposed use in the district in which it would be located, since it will conform to Municipal Code requirements and Use Permit conditions.
- 4. The proposed uses are compatible with surrounding uses and will not adversely impact, or be adversely impacted by, nearby properties. The proposed commercial uses are compatible with the area because Sepulveda Boulevard is, and is intended to be, a commercial thoroughfare. The building has substantial setbacks/landscaping, and buffer walls for compatibility with the surrounding commercial and residential uses.

As shown in the environmental documentation, Sepulveda Boulevard and other nearby streets can accommodate the anticipated traffic generated by the uses. Parking supplies are adequate for the proposed uses. The proposed uses will not generate vibration or odors, and will not adversely impact the security and personal safety of residents or aesthetics. The Project will not create demands exceeding the capacity of public services and facilities.

B. In addition to the Master Use Permit findings above, the Commission hereby makes additional findings with respect to the proposed alcohol sales and service. Three types of alcohol uses are proposed for the market: (i) traditional grocery store alcohol sales (off-sale beer, wine and liquor), (ii) alcohol beverage tasting in a limited designated area (promoting off-sale purchases), and (iii) on-site consumption (on-sale of beer and wine in the indoor and outdoor restaurant area only). The sale and

service of alcohol is a conditionally permitted use that may be subject to conditions of approval to mitigate any potential adverse effects.

1. Traditional off-sale grocery store alcohol has typically not raised concerns in the City. The Police Department has not identified concerns resulting from its experience with stores in the City providing alcohol tasting. However, unregulated alcohol tasting could create adverse impacts. Accordingly, this Resolution contains specific conditions to regulate alcohol tasting.
2. On-site consumption in dining/bar areas typically generates the most concern for alcohol-licensed establishments in the City. The Project includes 12 dining seats inside, including an interior sushi/wine service counter, and 16 dining seats outside, all located near the northeast corner of the market building. This location is oriented toward the entry and parking area, and is also adjacent to 8th Street, with a landscape buffer separation. While the proposed outdoor dining area has some exposure to residential neighbors, grocery store eating and drinking areas such as this typically do not generate alcohol related problems. Nevertheless, unregulated alcohol tasting could create adverse impacts. Accordingly, this Resolution contains specific conditions to regulate alcohol tasting.

C. Under MBMC Section 10.64.050(B), the Commission may approve a reduction in the number of parking spaces to less than the number specified in the schedules in MBMC Section 10.64.030. The Commission hereby makes the following findings with respect to the proposed parking reduction for the Project:

1. Reducing parking requirements is appropriate because the parking demand generated by the Project will be less than the requirement in Schedule A of MBMC Section 10.64.030 and the probable long-term occupancy of the buildings, based on their designs, will not generate additional parking demand.
2. The probable long-term occupancy of the buildings, based on their design, will not generate additional parking demand beyond quantities anticipated by the parking study because the use permit will limit the uses on the site to those proposed and analyzed in the study.

D. Under MBMC Chapter 10.72.060, a sign program must be consistent with the regulations of Chapter 10.72 and meet the Code's purpose of establishing uniform sign design guidelines and sign area allocations for all uses on the site. The Commission here by makes the following findings with respect to the Project's proposed sign program:

1. As conditioned, the Applicant's sign program is consistent with the regulations of MBMC Chapter 10.72 and meets the Code's purpose of establishing uniform sign design guidelines and sign area allocations for all uses on the site. Project signs primarily include tenant identification wall signs, and one large pole sign. The pole sign would somewhat replicate the existing auto dealership pole sign, located slightly to the south within the landscape area abutting Sepulveda Boulevard. The below conditions of approval prohibit excessive lighting for sign purposes.

SECTION 7. The Planning Commission has considered the Final MND, along with all comments received and the responses to the comments that are contained in the Final MND. The Planning Commission finds, in its independent judgment after considering all relevant evidence in the record of proceedings for the Project, including without limitation the information set forth in the Final MND, that there is not substantial evidence supporting a fair argument that the Project may actually produce any significant environmental impacts that cannot be mitigated to a less than significant level through implementation of those mitigation measures identified in the Final MND. Therefore, the Planning Commission finds that the Project will not have a significant environmental effect. The Planning Commission further finds that the Final MND reflects the Commission's independent judgment and analysis.

1 SECTION 8. Based upon the foregoing, and after considering all of the evidence in the
2 record, the Planning Commission hereby adopts the Final MND and the Mitigation Monitoring and Reporting
3 Program for the Proposed Project, and approves (a) a Master Use Permit for a 27,900 square foot specialty
4 grocery store, including on-sale and off-sale alcohol sales and instructional tastings, with incidental hot and
5 cold prepared food offerings and incidental seating areas (145 square-foot indoor incidental seating area and
6 503 square-foot incidental outdoor patio seating area), a 6,684 square foot bank building, a surface parking
7 lot on the primary Project site; a surface parking lot for employee use on the auxiliary employee parking site
8 and reduced parking; and (b) a Sign Program, subject to the following conditions:

- 9 1. The Project shall be in substantial conformance with the plans and Project
10 description submitted to, and approved by, the Planning Commission on
11 February 8, 2017. Applicant shall submit a final plan incorporating all of the
12 refinements, modifications, and conditions approved in this resolution within 30
13 days of the date of approval of this Resolution. The Director of Community
14 Development ("Director" hereinafter) shall determine whether any deviation from
15 the approved project is substantial which requires an amendment to the Master
16 Use Permit or any other discretionary entitlements. Any substantial deviation
17 from the approved plans or Project description shall require approval from the
18 Planning Commission.
- 19 2. The developer and operator(s) of the Project shall comply with the Mitigation
20 Monitoring and Reporting Program attached to this Resolution as Exhibit A, and
21 each mitigation measure set forth therein.
- 22 3. The Applicant shall pay all costs and fees incurred by the City in connection with
23 the Project: (a) in ensuring that the conditions of approval are complied with, as
24 well as monitoring of the mitigation measures in the adopted Mitigation
25 Monitoring and Reporting Program attached to this Resolution as Exhibit A; (b) in
26 the processing of Project-related permits and applications, including time spent
27 by City staff and legal staff to process and review all necessary permits,
28 applications, and land use entitlements, and the preparation of this Agreement
29 and the Consultant Services Agreements; (c) the costs of staff review of Owner
30 submittals and the costs of Consultants retained by City in connection with the
31 Project.

17 **Site Preparation/Construction**

- 18 4. All electrical, telephone, cable television system, and similar service wires and
19 cables shall be installed underground to the appropriate utility connections in
20 compliance with all applicable Building and Electrical Codes, safety regulations,
21 and orders, rules of the Public Utilities Commission, the serving utility company,
22 and specifications of the Public Works Department. Final utility equipment
23 locations and visual screening shall be subject to Community Development
24 review and approval.
- 25 5. Modifications and improvements to the site shall be in compliance with applicable
26 requirements of the Building Division, Fire Department, Health Department, and
27 State Department of Alcohol Beverage Control.
- 28 6. During demolition and construction on the site, the soil shall be watered in order
29 to minimize the impacts of dust on the surrounding area.
- 30 7. A site landscaping and irrigation plan utilizing drought tolerant plants, including
31 large-box-sized trees, shall be submitted for review and approval by the
32 Community Development and Public Works Departments concurrent with the
building permit application. All plants shall be identified on the plan by the Latin
and common names. Substantial tree buffers shall be provided along the
property lines abutting/facing the neighboring residences. A low pressure or drip
irrigation system shall be installed in the landscaped areas, which shall not cause

any surface run-off. Landscaping and irrigation shall be installed per the approved plan prior to building final.

8. Backflow prevention valves shall be installed as required by the Department of Public Works, and the locations of any such valves or similar devices shall be subject to approval by the Community Development Department prior to issuance of building permits.
9. All defective, damaged, inadequate or substandard curb, gutter, street paving, sidewalk improvements, catch basins or similar public infrastructure shall be removed and replaced with standard improvements, subject to the review and approval of the Public Works Department. Adjacent sidewalks shall be installed or replaced with landscaping enhancements, and disabled access improvements as determined by the City's Traffic Engineer and Public Works Department.
10. No waste water shall be permitted to be discharged from the premises. Waste water shall be discharged into the sanitary sewer system.
11. Property line clean outs, mop sinks, erosion control, and other sewer and storm water items shall be installed and maintained as required by the Department of Public Works or Building Official. Oil clarifiers and other post-construction water quality items may be required.

Commercial Operational Restrictions

12. The facility shall include bank, food and beverage sales, and eating and drinking establishment uses. Eating and drinking use shall only be permitted as a secondary component of a primary food and beverage sales use (grocery store) as shown on the approved plans and the project description.
13. Food and beverage sales and on-site eating and drinking shall be limited to operating hours of 7:00 a.m. to 10:00 p.m. daily.
14. The food and beverage sales tenant may conduct off-sale alcohol sales, on-sale beer and wine sales, and alcohol tasting provided no more than 15 percent of the area is devoted to alcohol display/drinking/tasting, and the tenant operates as a grocery store as determined by the Community Development Director. Entertainment, dancing, and alcohol licenses other than Type 21, Type 41, and Type 86, shall be prohibited. Alcohol consumption shall not be separated from the food and beverage operations beyond the extent required by Alcoholic Beverage Control. All activities associated with the alcohol tasting shall take place within the tasting area. Alcohol tastings shall be limited to the amounts specified in the ABC regulations for Type 86 license, and shall be subject to all other ABC regulations concerning Type 86 tastings. The design, location, and layout of the tasting area shall be subject to approval of the Community Development Director, shall be limited to 100 square feet, shall have no seating, furniture or fixtures, and shall be separated by a physical barrier from other store areas. The drink counter shall be the only level surface for placing glasses and other alcohol tasting items. Sampling shall be limited to patrons at least 21 years in age. Tastings shall be poured by store employees or the authorized licensee, or designated agents in accordance with ABC regulations. Only one tasting shall be provided to any person on any day. No special events, alcohol tastings parties or similar functions will be allowed in connection with the Type 86 license. No exterior signage for advertising alcohol tasting shall be permitted. Alcohol tasting shall be limited to 11 am to 9 pm daily.

- 15. Entertainment on the site shall be prohibited.
- 16. The management of the facility shall police the property and all areas immediately adjacent to the businesses on the site during the hours of operation to keep it free of litter.
- 17. The operators of the facility shall provide adequate management and supervisory techniques to prevent loitering and other security concerns outside the subject businesses. Security items or procedures shall be implemented and maintained on-site as determined to be appropriate by the Police Department.
- 18. A covered trash and recycling enclosure(s), with adequate capacity shall be provided on the site subject to the specifications and approval of the Public Works Department, Community Development Department, and City's waste contractor. A trash and recycling plan shall be provided as required by the Public Works Department and shall be implemented prior to building permit final and occupancy of the site.
- 19. All signs shall be in compliance with the City's Sign Code and submitted Sign Program for the Project. A final sign program shall be submitted to the Community Development Department for review and approval prior to sign permit issuance. Internally illuminated awnings or other architectural elements shall be prohibited. Signs shall be installed per the approved Program prior to building permit final and occupancy.
- 20. Noise emanating from the site shall be in compliance with the Municipal Noise Ordinance. Any outside sound or amplification system or equipment is prohibited.
- 21. A lighting plan, including a photometric study, shall be submitted for the surface parking lots and entire project site for approval by the Community Development and Police Departments. The Plan shall include energy efficient security lighting for the site. All outside site lighting shall be directed away from the public right-of-way and shall minimize spill-over onto the sidewalks and street. Shields and directional lighting shall be used where necessary to prevent spillover onto adjacent properties. (MBMC 10.64.170)

Traffic and Parking

- 22. The applicant shall maintain sufficient dedicated parking supply to provide a minimum of 135 parking spaces at all times, as shown on the approved plans and project description. The Director of Community Development shall determine whether any deviation from the Approved Plans and project description requires an amendment to the Master Use Permit or any other discretionary entitlements, and a written determination shall be made by the Community Development Director.
- 23. A Construction Management and Parking Plan (CMPP) shall be submitted by the applicant with the submittal of plans to plan check. The CMPP shall be reviewed and approved by the City, including but not limited to, the City Traffic Engineer, Planning, Fire, Police and Public Works, prior to permit issuance. The Plan shall include, but not be limited to, provisions for the management of all construction related traffic, parking, staging, materials delivery, materials storage, and buffering of noise and other disruptions. The Plan shall minimize construction related impacts to the surrounding neighborhood, and shall be implemented in accordance with the requirements of the Plan.

24. Prior to the first building permit final and occupancy, an Employee Parking Management Plan shall be submitted to the Traffic Engineering and Planning Divisions for City review and approval to minimize the potential for overflow parking into the surrounding neighborhood. The Plan shall include the recommendations included in the Traffic Impact and Parking Demand Study, within the Initial Study. Penalties and corrective measures for non-compliance shall be identified in the Plan. The Plan shall be approved prior to building final and occupancy, and shall be implemented immediately.
25. Deliveries and loading shall be limited to the hours between 7:00 a.m. and 1:30 p.m. Monday-Saturday with the exception of 2-axle delivery vans, which may deliver during regular business hours of 7:00 AM to 10:00 PM. No delivery vehicles shall be allowed to remain in the loading dock or on the property outside of business hours. No deliveries are permitted on Sundays.
26. All on-site and off-site improvement plans, shall be submitted to plan check, at the same times as the building plans. The plans shall be reviewed and approved by the City Traffic Engineer, Planning, Public Works, Police, Fire and Caltrans, where applicable, prior to the issuance of permits. The Project shall be fully constructed per the approved plans prior to issuance of a permit final and occupancy. The plans shall include, but not be limited to the following features:
 - a. All two-way driveways and approaches shall be as wide as the aisle they serve, not including approach wings or radii. The Sepulveda Boulevard driveway and widened shoulder shall be constructed per Caltrans standards.
 - b. All raised landscaping planters along the property frontages shall begin or end perpendicular to the lower portion of the driveway wings.
 - c. The driveway on Sepulveda Boulevard shall be restricted to Right Turn In/Right Turn Out and posted with signs and striping as directed by the City Traffic Engineer and Caltrans.
 - d. Outbound traffic at the driveway on 8th Street shall be restricted to Right Turn Out only and posted with signs and other design criteria as directed by the City Traffic Engineer.
 - e. All parking spaces in the main parking lot shall remain unrestricted for all users during business hours.
 - f. Parking stall cross-slope shall not exceed 5%.
 - g. Doors, gates, staircases, and similar improvements, shall not swing into a vehicle aisle or walkway.
 - h. Provide unobstructed triangle of sight visibility (5' x 15') adjacent to each driveway and behind the ultimate property line, after dedications, when exiting the parking areas without walls, columns, landscaping, or similar obstructions over 36 inches high. (MBMC 10.64.150)
 - i. All parking spaces adjacent to a vertical obstruction, except columns and obstructions adjacent to the front five feet (5') of a parking space, must be at least one foot wider than a standard space. (MBMC 10.64.100B)
 - j. Wheel stops shall be provided for all parking spaces except parallel spaces or those spaces abutting a masonry wall or protected by a 6-inch high curb. (MBMC 10.64.100.D)

- k. At least two feet of additional aisle is required beyond the end of a dead end aisle to provide sufficient back-up space for vehicles in the last space of the aisle.
 - l. Disabled parking must comply with current standards including but not limited to ADA and the CBC, and one or more van size spaces may be required.
 - m. Construct new minimum 8-foot wide sidewalk along property frontages on the south side of 8th Street and north side of 6th Street.
 - n. Construct new 4-foot minimum wide sidewalk along the rear property frontage on the east side of Larsson Street.
 - o. Replace existing sidewalks with new 8-foot wide sidewalks and a 3-foot wide "furniture zone" to protect pedestrians on the west side of Sepulveda Boulevard along the property frontage.
 - p. All unused driveways and undeveloped property frontages shall be reconstructed with curb, gutter and sidewalk. Remove and replace existing driveway approaches to be reused in conformance with City and State standards.
 - q. All compact spaces shall be labeled with signs and stencil markings at the back of each space.
 - r. Bicycle parking shall be provided at a rate of 5% of all parking spaces. The bike parking shall be located as close as feasible to 8th Street with a clear path of travel. (MBMC 10.64.80)
 - s. The folding architectural screen walls adjacent to the loading dock shall remain closed at all times except when delivery trucks are entering or exiting the loading area.
 - t. All parking lots shall be signed and marked to the satisfaction of the City Traffic Engineer.
27. The applicant shall provide dedications as detailed below for ADA access, other improvements and to upgrade the area to current standards for pedestrian and vehicular circulation. The applicant shall submit plans for the improvements to the Public Works, Fire, Police and Community Development Departments, the City Traffic Engineer, and Caltrans, as applicable, for review and approval, with the submittal of the building plan check. All dedications shall be recorded and required improvements completed per the approved plans prior to the issuance of a building final and occupancy of the site.
- a. A street dedication shall be granted to Caltrans that includes the entire width of existing and proposed sidewalks and widened shoulder along the Sepulveda Boulevard frontage.
 - b. A triangular 25-foot corner cut-off dedication shall be provided to the City at the southwest corner of Sepulveda Boulevard and 8th Street as formed by the future property lines. The applicant shall construct a public sidewalk and pedestrian ramp on this corner to City and Caltrans, if applicable, standards or reimburse the City for the project if it is constructed by the City prior to project Construction. The applicant shall show the proposed right of way dedication on all plans.

- c. A triangular cut-off dedication shall be provided to the City at the northwest corner of Sepulveda Boulevard and 6th Street, as determined by the City Traffic Engineer. The applicant shall construct a public sidewalk and pedestrian ramp on this corner to City and Caltrans, if applicable, standards. The applicant shall show the proposed right of way dedication on all plans.
 - d. A triangular 10-foot corner cut-off dedication shall be provided to the City at the southeast corner of 8th and Larsson Street as formed by the future property lines. The applicant shall construct a public sidewalk and pedestrian ramp on this corner to City standards. The applicant shall show the proposed right of way dedication on all plans.
- 28. The applicant shall submit to the City a cost estimate for completion of all of the required off-site improvements, including but not limited to the traffic and public improvements, with the submittal of plans to plan check. If the City accepts the final cost estimate, the applicant shall provide a bond or other financial security, equal to 1.25 times the estimated cost of the improvements, acceptable to the satisfaction of the Finance Director, Director of Public Works and the City Attorney, prior to the issuance of building permits.
 - 29. The off-site parking lot portion of the Project shall allow reciprocal vehicle access through the parking lot and driveway with adjacent properties for any future approved project upon which a similar reciprocal access condition is imposed. Parking lot configuration shown on the approved plans shall be modified (at the expense of the Applicant) at the time of implementation of the reciprocal access, with no reduction in parking. Reciprocal access agreements shall be provided to the Community Development Department for review, and approval at the time of any such future project, and shall be recorded upon approval by the Community Development Director.
 - 30. There shall be no change to the land use or square footage of land uses on the site as described in the Parking Analysis unless the change receives prior written approval by the Community Development Director, who may require a supplemental parking study to determine whether there is a change in parking demand and whether sufficient parking will be provided.
 - 31. A new crosswalk with pedestrian ramps shall be constructed across 8th Street near the off-site employee parking lot located on the north side of the Street. "KEEP CLEAR" markings shall be installed on 8th Street at the driveways.
 - 32. The applicant shall construct or reimburse the City for the construction of high-visibility ladder-style crosswalks on all approaches at the intersections of:
 - a. Sepulveda Boulevard and 8th Street
 - b. 8th Street and Larsson Street, and
 - c. 6th Street and Larsson Street.
 - 33. The applicant shall construct a Class II bikeway on 8th Street along the property frontage.

Procedural

- 34. *Terms and Conditions are Perpetual; Recordation of Covenant.* The provisions, terms and conditions set forth herein are perpetual, and are binding on the Applicant, its successors-in-interest, and, where applicable, all tenants and lessees of the site. Further, the Applicant shall record a covenant indicating its consent to the conditions of approval of this Resolution with the Office of the County Clerk/Recorder of Los Angeles. The covenant is subject to review and approval by the City Attorney. APPLICANT shall deliver the executed covenant, and all required recording fees, to the Department of Community Development

1 within 30 days of the adoption of this Resolution. If APPLICANT fails to deliver
2 the executed covenant within 30 days, this Resolution shall be null and void and
3 of no further effect. Notwithstanding the foregoing, the Director may, upon a
4 request by APPLICANT, grant an extension to the 30-day time limit.

5 35. *Indemnity, Duty to Defend and Obligation to Pay Judgments and Defense Costs,*
6 *Including Attorneys' Fees, Incurred by the City.* APPLICANT shall defend,
7 indemnify, and hold harmless the City, its elected officials, officers, employees,
8 volunteers, agents, and those City agents serving as independent contractors in
9 the role of City officials (collectively "Indemnitees") from and against any claims,
10 damages, actions, causes of actions, lawsuits, suits, proceedings, losses,
11 judgments, costs, and expenses (including, without limitation, attorneys' fees or
12 court costs) in any manner arising out of or incident to this approval, related
13 entitlements, or the City's environmental review thereof. APPLICANT shall pay
14 and satisfy any judgment, award or decree that may be rendered against City or
15 the other Indemnitees in any such suit, action, or other legal proceeding. The
16 City shall promptly notify APPLICANT of any claim, action, or proceeding and the
17 City shall reasonably cooperate in the defense. If the City fails to promptly notify
18 APPLICANT of any claim, action, or proceeding, or if the City fails to reasonably
19 cooperate in the defense, APPLICANT shall not thereafter be responsible to
20 defend, indemnify, or hold harmless the City or the Indemnitees. The City shall
21 have the right to select counsel of its choice. APPLICANT shall reimburse the
22 City, and the other Indemnitees, for any and all legal expenses and costs
23 incurred by each of them in connection therewith or in enforcing the indemnity
24 herein provided. Nothing in this Section shall be construed to require
25 APPLICANT to indemnify Indemnitees for any Claim arising from the sole
26 negligence or willful misconduct of the Indemnitees. In the event such a legal
27 action is filed challenging the City's determinations herein or the issuance of the
28 approval, the City shall estimate its expenses for the litigation. APPLICANT shall
29 deposit that amount with the City or enter into an agreement with the City to pay
30 such expenses as they become due.

31 SECTION 9. The entitlements conferred by this Resolution shall lapse two years after the
32 date of this resolution, unless the subject improvements are installed or the Applicant seeks an extension
pursuant to Municipal Code Section 10.84.090.

SECTION 10. Pursuant to Public Resources Code Section 21089(b) and Fish and Game
Code Section 711.4(c), the Project is not operative, vested or final until the required filing fees are paid.

SECTION 11. The Planning Commission's decision is based upon each of the totally
independent and separate grounds stated herein, each of which stands alone as a sufficient basis for its
decision.

SECTION 12. The Secretary shall certify to the adoption of this Resolution and shall forward
a copy of this Resolution to the applicant. The Secretary shall make this resolution readily available for
public inspection.

SECTION 13. The Secretary to the Planning Commission shall certify to the adoption of this
Resolution.

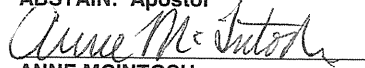

I hereby certify that the foregoing is a full, true, and correct copy of the Resolution as adopted by the Planning Commission at its regular meeting of March 22, 2017, and that the Resolution was adopted by the following vote:

AYES: Conaway, Bordokas

NOES: Ortmann

ABSENT: None

ABSTAIN: Apostol

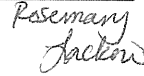

ANNE MCINTOSH

Secretary to the Planning Commission
Interim Community Development Director

Rosemary Lackow
Recording Secretary
