City of Manhattan Beach Concert Series

Methodology

Morningstar Producitons, LLC knows that the success of your events depends on our attention to detail.

From the minute we contract with the the City of Manahattan Beach we begin coordianting our efforts. We reserve the equipment for your event, we reserve the technicians for your event, and we will not take on any additional projects that would interfere with our ability to provide excellent service for your concerts.

Starting with the Stageline SL 100. We regularlyly have the stage certified by Stageline and we regularly go through it to make sure it is in proper operating condition. We are proud to say that we have 5 certified Stageline SL 100 technicians on staff so if one or two become unavailable we still have 3 to pull from. We also have teo trucks on lour lot that are cabable of towing the SL 100 trailer stage. So if one truck is in service, the other one is available.

Our audio equipment is state of the art. For the 2023 concert series we will be deploying the new JBL SRX 906LA line array system with the SRX 918 subwoofers. If by chance our new sound system gets abducted by aliens and becomes unavaiable we can fall back on our Electro Voice XLC 127+, our JBL VERTEC 4887, or our JBL VRX 932 LA sound systems as well. We have multiple backup plans already in place.

On event days our employees will leave Morningstar Productions LLC in plenty of time to arrive at the event location early. We will have a team of experienced techicians on site for the duration of your event day to manage the equipment and work with your artists. Mornngstar Producitons LLC will only will deploy W2 employees that our on our payroll and covered by our insurance. We do not use 1099 labor and we are AB5 compliant.

Sincerely,

Brian Shannon
