

# Green Business Certification Recognition

Recognizing 11 businesses that have met the California Green Business Network certification and recertification requirements.

The Green Business Certification Program is managed by Waste Management as part of its Franchise Agreement with the City.

These businesses have gone above and beyond to implement programs to conserve our natural resources.

For example, these businesses have

- \* Installed LED lighting
- \* Participate in the City's recycling and/or organics programs
- \* Installed low-flow aerators for faucets
- \* Reduced use of disposable paper products and use of products from recycled materials
- \* Switched to eco-friendly cleaning products
- \* Use Star energy-efficient appliances and equipment

# The following are the 2023 Certified and Recertified\* businesses:
