RE: AB 650 (Papan) Planning and Zoning: Housing Element: Regional Housing Needs Allocation.
Notice of SUPPORT (As of 3/28/25)

Dear Assemblymember Papan,

The City of Manhattan Beach is pleased to support measure **AB 650 (Papan)**, which would allow local governments to begin the housing element update process six months early, provide greater certainty and reduce ambiguity in the housing element review process, and ensure that local governments have adequate time to respond to the California Department of Housing and Community Development's (HCD) review letters.

Since 1969, California's local governments have planned and selected sites for housing at all income levels through the housing element portion of a local government's general plan. Every five to eight years, local governments are required to adopt a blueprint outlining where developers can or cannot build residential developments within their respective communities and obtain certification from HCD. Local governments plan for their fair share of housing development as determined through the Regional Housing Needs Allocation (RHNA) process. As part of this complex process, local governments submit in their housing elements a variety of essential data, actions, and programs to promote fair, equitable, and affordable housing in their community. Currently, local jurisdictions are planning and zoning for nearly 2.5 million additional homes statewide.

During the 6th RHNA cycle, local governments experienced various unprecedented challenges in obtaining certification from HCD. Some of the challenges include a short timeline for completing these complex documents and responding to HCD's feedback, a lack of clarity regarding what the State expects from local governments when reviewing additional housing element drafts, and the introduction of new requirements late in the housing element review process. Importantly, the bill would exempt local jurisdictions from the requirement to approve builders remedy projects while draft housing elements are under review by HCD and while revisions are being made, in a timely manner, in response to comments provided by HCD on the draft housing element.

AB 650 would address these issues by allowing local governments to begin updating their housing element six months early. The bill would also require HCD to provide specific text and analysis that must be included in the housing element to remedy deficiencies, ensuring that local governments are not penalized when HCD identifies additional deficiencies not previously identified in prior review letters.

Many municipalities, including Manhattan Beach, agree that HCD's 6th cycle housing element review was inconsistent and arbitrary. A standardized reporting format and extended timeline would be greatly beneficial, as the City experienced several of the aforementioned challenges firsthand during the approval process of the 6th Cycle Housing Element.

For these reasons, the City of Manhattan Beach is pleased to support your measure AB 650 (Papan).

Sincerely,

A handwritten signature in black ink, appearing to read "Amy Thomas Howorth", with a stylized, flowing script.
