### **Skechers Use Permit Appeal City Council 06/06/2017**

#### **Manhattan Beach Municipal Code 10.04.030 Definitions**

Floor Area, Buildable: The total enclosed area of all stories of a building, measured to the outside face of the structural members in exterior walls, and thirty percent (30%) of the area of all basements of a building that are not entirely below local grade, and including halls and the area of the stairs, but excluding floor area under stairs and those portions of a basement that are entirely below grade (see graphic illustration). The following elements also are excluded from a determination of buildable floor area:

Commercial and Industrial Districts: That area used exclusively for vehicle parking and loading and in service and mechanical rooms, enclosed vertical shafts, or elevators.

#### **Single-family Residential Districts:**

Area Districts I and II: That area used for vehicle parking and loading, up to four hundred (400) square feet on lots where two (2) enclosed parking spaces are required and provided, and up to 600 square feet where three (3) enclosed parking spaces are required and provided. Up to two hundred (200) square feet of basement area for purposes of storage and mechanical equipment use. Basement areas located entirely below local grade, and the related wells if they are the minimum size required by the UBC. A condition of "entirely below local grade" exists where the vertical dimension between the local grade elevation and finished floor of the next floor above is no greater than two feet (2').

Area Districts III and IV: That area used for vehicle parking and loading, up to four hundred (400) square feet on lots where two (2) enclosed parking spaces are required and provided, and up to six hundred (600) square feet where three (3) enclosed parking spaces are required and provided. Up to two hundred (200) square feet of basement area for purposes of storage and mechanical equipment use. Basement areas located entirely below local grade, and the related wells if they are the minimum size required by the UBC. A condition of "entirely below local grade" exists where the vertical dimension between the local grade elevation and finished floor of the next floor above is no greater than two feet (2').

Multi-family Residential Districts: That area used exclusively for vehicle parking and loading. Up to two hundred (200) square feet of basement area for purposes of storage and mechanical equipment use. Basement areas located entirely below local grade, and the related wells if they are the minimum size required by the UBC. A condition of "entirely below local grade" exists where the vertical dimension between the local grade elevation and finished floor of the next floor above is no greater than two feet (2').
