

THE PROBLEM & SOLUTION TO LEAF BLOWERS IN MANHATTAN BEACH

THE PROBLEM

Why the use of leaf blowers in Manhattan Beach should be discontinued:

- 1) Illegal – MB Ordinances (Also illegal in City & County of Los Angeles)
City Ordinances:
1.06.000
1.06.040
5.48.330
- 2) Noise Pollution – Blowers can be heard for 3 blocks
- 3) Greenhouse Gas Emission - Gas powered units pollute
- 4) Leaves are just moved about--not gathered & composted [Environmental]
- 5) Virtually impossible to mobilize City enforcement to timely to get to scene

THE SOLUTION: LEAF VACUUM UNIT

WHY AN ELECTRIC/BATTERY POWERED LEAF VACUUM MAKES SENSE:

- 1) Cost Investment - \$ 175 to \$250
- 2) Noise – Quieter, like a EV or Hybrid car or 70 dbs level
- 3) Environmental – Little or no Greenhouse gases
- 4) Citizenry – Vacuum captures leaves for composting – not blowing to the neighbors/street

Two Videos that show how Leaf Vacuum systems work:

- 1) <https://www.shop411.com/shopping?q=greenworks+leaf+vacuum&qsrc=0&o=32972&l=sem&qo=serpSearchTopBox>
- 2) <https://www.shop411.com/shopping?q=greenworks%20leaf%20vacuum&qsrc=308&o=32972&l=sem&qo=topCategory&categoryId=13010200&qo=topCategory&qsrc=308>

THE SOLUTION: LEAF VACUUM [Three Possible Units]

1) Greenworks 40V Blower Vacuum - \$ 125

2) GREENWORKS
\$194.97

3) WORX

\$168.00
