

Three Functions in One Leaf Vacuum Tool in Manhattan Beach

1. Vacuum will pick up outside debris, making quick cleanup of leaves & grass.
2. Blower: Without any tools or additional pieces you can turn into a Blower with a flip of a switch. Pile up your leaves or clear off your sidewalk or driveway quickly.
3. Mulcher: The unit turns that once large pile of leaves into a manageable collection of mulch that can be used in landscaping, discarded or used for composting.
