

CITYWIDE DOCUMENT IMAGING SYSTEM (CONVERSION) PROJECT

City continues to utilize OnBase as our central electronic content management software through Konica Minolta Business Solutions/KMBS-ECM. City Council approved use of OnBase on June 15, 2015. The City Clerk began integrating the systems in early 2016 and continues to work with departments to upload documents in phases. In order to assess department-specific needs and a tentative implementation schedule, the City Clerk's office along with IT convened the Electronic Records and Retention Subcommittee in July of 2018. This subcommittee includes staff from every department and meets monthly to discuss the management of City records and their retention.

CENTRALIZED CITYWIDE CONTRACT

MANAGEMENT SYSTEMS

In 2016, staff convened a Contract Working Group with the City Attorney's Office, Human Resources/Risk Management and Finance Department to create a more efficient and effective contract approval process. The group created a citywide contract workflow process with all City departments. Investing in a Citywide Contract Management solution ensures accurate record-keeping practices, continued workflow standards, maintaining legal compliance and meeting insurance requirements. On March 9, 2018, City Council directed staff to move forward with a Citywide Contract Management software solution that manages the City's growing contract demands.

HUMAN RESOURCES

INTERNAL POLICIES AND PROCEDURES REVIEW

Human Resources staff is conducting a review of current policies and procedures. The Municipal Code outlines the framework for the City's Personnel Rules, which were promulgated in 1978. Additionally, there are Personnel Instructions and Administrative Instructions which contain policies and procedures for City employees and an Employee Handbook that is outdated. While some resolutions have been passed to update certain provisions of the rules and some instructions have been updated, a comprehensive review had not been undertaken. Staff is evaluating the City's personnel rules and instructions, including the policy for processing workers' compensation claims and the City's Injury Illness Prevention Program (IIPP) program.

IMPLEMENTATION OF 2019-20 STRATEGIC PLAN

The 2019-2020 Strategic Plan took effect on January 1, 2019 and serves as a road map to guide the Police Department in the delivery of police services to the Manhattan Beach community. Since 2008, MBPD has utilized a three or four-year strategic planning process to establish goals and priorities and to serve as our road map for the future. For the first time, we are adopting a two-year plan in order to be responsive to emerging trends. Workshops, surveys, and meetings were conducted with supervisors and with sworn and civilian personnel representing every Bureau in the Police Department. A community workshop with community stakeholders was also conducted in preparation for the new strategic plan. One aspect of the Strategic Plan is to implement the "Community Safety Collaboration Initiative" which aims to strengthen community engagement beyond groups that typically interact with the Police Department

PUBLIC SAFETY TECHNOLOGY ASSESSMENT

The Police Department currently has fixed Automated License Plate Readers (ALPRs) at five intersections in Manhattan Beach (Artesia/Aviation, Manhattan Beach Blvd./Aviation, Marine/Aviation, Rosecrans/Aviation, and 45th/Highland). Installation was completed in August 2017. The ALPR system continues to be a positive addition to the Police Department's investigative and crime fighting toolbox, helping investigators to solve crime and helping patrol officers to proactively find and arrest wanted felons entering our community. At the request of Council, staff has researched and identified several additional locations and will bring the proposal to City Council for consideration.

UNIFORM CITYWIDE WAYFINDING SIGN PROGRAM

In 2015, City Council directed staff to develop a wayfinding signage program that would create a City indentity through uniform signage to be deployed throughout the City. Presentations on this effort were made to City Council on multiple occassions between October 2015 and July 2018 that included various design options. Ultimately City Council selected a "Beach Classic" theme. A draft Wayfinding Master Plan was developed based on the Beach Classic theme and presented to the Cultural Arts Commission, Planning Commission, Parking and Public Improvements Commission, Downtown Business Professional Association and North End Business

Improvement District for review and comments between April 16, 2018 and May 23, 2018. The final Master Plan was then presented to City Council on June 5, 2018, at which time staff was directed to refine certain color pallete and font selections contained in the Master Plan. UTILTIY UNDERGROUND ASSESSMENT DISTRICTS

The City's Utility Underground Assessment District (UUAD) program allows property owners to self assess the cost of relocating overhead utilities to underground networks. The program was very active in the early to mid-

2000s, but was placed on a moratorium in 2009at the onset of the economic recession. That moratorium was lifted in 2017, and Districts 12 and 14 were permitted to resume with district formation proceedings. Additionally, District 4 was initiated and began design work for. In addition to revisign the rpogram, City Council established new guidelines for district formation while allowing for flexibility in petition thresholds in the previousyl formed Districts 8 and 13. Several neighborhoods have contacted the City inquiring about starting their own UUADs, and were told the program will commence for new districts in early 2020.

PEDESTRIAN SECURITY IMPROVEMENTS - BOLLARDS

On March 9, 2018, City Council held a workplan meeting where the concept of pedestrian safety measures was raised. At that meeting, City Council expressed an interest in exploring options to provide enhanced security measures for the public in the downtown area, much like what had been installed at the head of the Pier in 2017. On June 5, 2018 staff recommended that City Council consider security enhancements at four key intersections adjacent to Farmers Market and Pier events. On March 19, 2019, City Council directed staff to evaluate what other surrounding cities have installed to enhance pedestrian safety. CODE ENFORCEMENT REVIEW

In recent years, the City has adopted a number of ordinances regulating and/or banning uses and activities within the City limits. This requires a period of education and notification of community members – residents, commercial business owners, and in some cases visitors as well. Further, in order to make the ordinance effective, enforcement against violators is also required. Other routine activities in the community, such as construction, business operations, and property maintenance, also requires oversight by code enforcement staff.

The City Council will evaluate the Code
Enforcement Program in the City to determine if

staffing levels and staff deployment are appropriate to meet the expectations of the community. Staff will work on upgrading the "Reach MB" application to ensure the functionality of engaging code enforcement. A review of fines will also be addressed.

BUILDING CODE UPDATE

The California Building Standards Commission published the State construction codes on July 1, 2019, which is a routine process that occurs every three years. The California Department of Housing and Community Development adopted these codes, which will be effective statewide on January 1, 2020. The City must adopt these codes with any amendments before that date as part of an 89 city effort. These codes include the 2019 California Building, Residential, Mechanical, Electrical, Plumbing, Energy, Existing and Green Building Standards. The City is able to amend certain provisions due to unique climatic, geological and topographical conditions prevailing within the City. A majority of the amendments clarify and update the structural requirements due to potential hazards specific to our community, such as earthquakes.
