

CITY OF MANHATTAN BEACH

FISCAL YEAR 2019-2020 CITY COUNCIL WORK PLAN

COMPLETED ITEMS

BODY WORN CAMERA REPLACEMENT PROJECT

In January 2016, the Police Department began using Body Worn Cameras. The use of Body Worn Cameras (BWC) serve as an effective tool for law enforcement agencies to demonstrate commitment to transparency, ensure the accountability of its members, increase the public's trust in officers and protect department members from unjustified complaints of misconduct. Current BWCs have reached their recommended end of life (2.5 - 3 years), and new BWC technology has developed over the past few years. Replacement of BWCs is critical to officers' safety, accountability and transparency.

FIRE CODE ADOPTION

The California Fire Code (CFC) contains regulations consistent with nationally recognized and accepted practices for safeguarding life and property from the hazards of Fire and explosion, Dangerous conditions arising from hazardous storage conditions, handling and use of hazardous materials and devices, and hazardous conditions in the use or occupancy of buildings or premises. The CFC also contains provisions to assist emergency response personnel. These fire-safety-related building standards are referenced in Title 24 of the California Fire Code. The City is able to amend certain provisions due to characteristics that are unique to the City. Any and all amendments clarify and strengthen our existing regulations.

BUILDING CODE UPDATE

The California Building Standards Commission published the State construction codes on July 1, 2019, which is a routine process that occurs every three years. The California Department of Housing and Community Development adopted these codes, which will be effective statewide on January 1, 2020. The City must adopt these codes with any amendments before that date as part of an 89 city effort. These codes include the 2019 California Building, Residential, Mechanical, Electrical, Plumbing, Energy, Existing and Green Building Standards. The City is able to amend certain provisions due to unique climatic, geological and topographical conditions prevailing within the City. A majority of the amendments clarify and update the structural requirements due to potential hazards specific to our community, such as earthquakes.
