2020-2021 Manhattan Beach Rates: Residential with 1.3% CRC

The FY2020-2021 rates are comprised of the contractor rate (Waste Management) + the City's City Recovery Cost (CRC) when applicable.

FY2021-2022, FY2022-2023, FY2023-2024 and FY2024-2025 solid waste hauling fee increases will be limited to the Consumer Price Index (CPI) increase for Trash and Garbage Collection (CUUR0000SEHG02), U.S. City average, as published by the United States Department of Labor, Bureau of Labor Statistics, between the calendar year ended the December prior to the Rate Year anniversary date, and the calendar year ended the prior December. The City's CRC is also adjusted annually and is based on actual cost for administration of the solid waste program but will not exceed 5% annually. The rate adjustment is calculated administratively and is effective on July 1 each year.

Single Family Dwelling (SFD) Monthly Rates

Single family residents will be charged a Standard Service rate for their FIRST (1st) gray trash cart. If additional gray trash carts are requested, the "additional SFD trash cart" rate will be applied to each additional gray trash cart. Optional Backyard Service is available by request for an additional surcharge per dwelling unit (hauler retrieves carts from owner's private property, services carts and returns to original location - helpful for seniors, physically impaired, frequent travelers, etc.).

Blue Recycling and Green Organics (yard/food) carts will be provided and serviced at no additional charge. The Backyard Service Surcharge is in addition to Standard Service fee and is assessed per dwelling unit.
