RECOMMENDATION:

No fiscal implications associated with the recommended action.

BACKGROUND:
At the City Council Regular Meeting of April 18, 2017, a modernized and updated Boards and Commissions Handbook was presented for City Council review and approval.

Among the motions made by City Council, City Council approved the Work Plan Process and directed staff to make a variety of revisions for final approval of the Boards and Commissions Handbook at the July 5, 2017 City Council meeting.

The Work Plan section of the Boards and Commissions Handbook states:

“Prior to the annually scheduled Joint City Council/Commission meeting, the Staff Liaison will develop a list of ideas to discuss with City Council. At the Joint meeting, the commission will receive direction and prioritize ideas from the City Council. Subsequently, at the next regularly scheduled commission meeting, the commission will further develop a Draft Work Plan based on City Council direction. Ideas will then be filtered to be consistent with City Policies and develop fiscal implications. Following the approved Draft Work Plan, Staff Liaisons shall provide a cover memo indicating whether the Commission’s Draft Work Plan corresponds with the Department’s Work Plan. The process allows staff and commissioners to draft a Commission Work Plan that properly accounts for their priorities and requests funding to meet their goals.

The work of the Planning Commission and Parking and Public Improvements Commission is primarily directed by applications submitted by property owners and community petitioners. However, the commissions also provide direction on Work Plan items regarding policy matters that come before the City Council. Some of these are mandated by State Law, but others are issues of local concern.

In 2017, two projects that were identified by City Council as priorities were: 1) completion of the Mobility Plan (also known as the General Plan Circulation Element), and 2) initiatives to address development on the Sepulveda corridor. These were the matters discussed at last year’s Joint Meeting. The Mobility Plan was adopted on May 15, 2018. The Sepulveda Initiatives have been before the Planning Commission, and additional meetings will be scheduled on this topic with both Commissions in the coming months.
