INFORMATION ITEM ONLY

On August 10, 2022, the Planning Commission considered the item described below.

1. Consideration of a Coastal Development Permit, Use Permit, and Vesting Tentative Parcel Map for construction of a new multi-family residential condominium structure with three units located at 216 14th Street, and adoption of an environmental determination in accordance with the California Environmental Quality Act (Dennis Cleland).

On April 7, 2022, the Community Development Department received an application requesting a Coastal Development Permit, Use Permit and Vesting Tentative Parcel Map for demolition of an existing triplex and construction of a new three-unit residential condominium building located at 216 14th Street.

The November 9, 2022 Planning Commission meeting was duly noticed on October 27, 2022, and the Planning Commission Agenda with staff report and attachments was published on November 3, 2022. Staff received one written public comment. At the meeting, three individuals spoke in opposition to the project. Based on substantial evidence in the record, and pursuant to the Manhattan Beach Local Coastal Program and other applicable law, the Planning Commission adopted the resolution approving the project, with a modified ownership name, and adopted the environmental determination, in accordance with staff's recommendation.
